CLOVERPORT, KENTUCKY, WEDNESDAY, JUNE 22, 1898.

NO. 49.

ARE THEY THERE?

Report That American Troops Have Arrived.

THEY LAND NEAR SANTIAGO.

That Town is to Be Attacked By Them Without Delay.

Madrid, June 20.—A private dispatch received here from New York says General Shafter's expedition has landed near Santiago de Cuba and will attack the town immediately.

Of Guantanamo, June 20.—According to reports made by Cuban scouts, the inhabitants of Calmanera have strewn the streets with straw and oil with the intention of destroying the city and fleeing to the hills.

Starting and famine stricken, convinced of the ultimate triumph of the American arms and without faith in the protection of the Spanish soldiers, the people have determined to leave their houses in haste.

The people are eating horses and mules and are scouring the hills for fruits and herbs. Occasional brief bombardments by the American fleet have the helpless citizens terror stricken, no preparations for defense being made.

The Spanish garrison at Calmanera has been loaded with inflammables and will be burned with the city, her commander declaring that he will never become an American prisoner.

The Spanish soldiers are in almost a complete state of panic as are the civilians and they could easily be induced to surrender.

Some of the prisoners taken by the marines say they believe the Spanish troops are on the verge of surrendering due to the lack of food.

Of Santiago de Cuba, June 20.—The American gunners last Thursday spent the day and night everywhere, as revealed by a careful inspection of the fortifications along the coast of the hills defending Santiago harbor.

The vitrines which circled on level wings over the hills, as thick as avalanches around a chimney, for hours after the firing ceased, furnished gruesome evidence of the fatality among the Spanish soldiers.

The most ominous token of death flew from Morro castle. The saffron flag of Spain was hauled down for several hours. The significance of this is not known. It is not customary to haul down the flag, but possibly some Spanish leader was killed by the heavy fire of our guns, though some officers of the squadron believe that the flag was hauled down as a notification to the Americans that Lieutenant Hobson and his brave men had been murdered.

Key West, Fla., June 20.—A Cuban pilot named Juan Santos, who arrived here on board an American warship, reports that he entered Santiago de Cuba and found there a Spanish garrison of 15,000 men.

He adds that the vessels of Admiral Cervera's fleet lying at that port are the armored cruisers Cristobal Colon, Yacaya and Almirante Oquendo, two small cruisers, two torpedo boats and the Reina Mercedes.

The pilot further says that the Spanish war vessels are fully manned, but that the crews are discouraged and disappointed.

Cadix, June 20.—Captain Aunon says he fears it will be impossible for Admiral Cervera to escape, but that he is convinced that Cervera will take the first opportunity for an exchange of compliments with the Americans.

Of Santiago de Cuba, June 20.—Spain reports to Admiral Sampson that the Spanish general, Jorja, and several other officers were killed by the gunboat explosion at the first trial on the batteries by the Vesuvius.

Hongkong, June 20.—The British steamer Yuen Sang, which arrived from Manila on June 14, reports that on leaving Manila she sighted a number of vessels believed to be American transports.

ALLIED AGREEMENT

Between the Philippine Insurgents and the American Armies.

Madrid, June 18.—The text of the Berlin letter dated June 4 and read in the cortes on Thursday, purporting to be the text of an agreement signed April 24 at Singapore between Aguinaldo, the insurgent leader, and the American consul there, regarding the future government of the Philippines, an agreement afterward orally ratified at Hongkong by Admiral Dewey, is published here.

In this agreement Aguinaldo undertakes to organize a republican government under the protectorate of the United States with the assistance of two or three American delegates as counselors. The ports of the archipelago are to be opened to foreign trade and immigrants with certain restrictions against the Chinese.

The following clauses promise judicial and other reforms, the expulsion and abolition of "tyrannical religious orders," the freedom of the press, protection to Spanish residents, provision for the return of Spanish officials to Spain and the general development of the country.

Washington, June 18.—The return to Washington of General Miles from Tampa had an inspiring effect upon the war preparations.

The general had a busy day calling upon Secretary Alger, consulting the chiefs of the staff departments and giving the department the benefit of his observations at Tampa.

Secretary Alger said that he was entirely satisfied with the condition of the troops as reported by General Miles and wished that he had the means to provide every one of the volunteer soldiers daily surf baths such as was enjoyed by the men at Tampa.

Plans were moving forward steadily for sending further expeditions both to the north and south of the island. The necessity of sending these additional forces is questioned by high military officials, and the means of transporting such a force are not available.

The main consideration just at present in the estimation of an expedition is the cost of the operation.

of greater dimensions than any heretofore discussed, with Porto Rico as the objective point.

A month ago the military authorities were satisfied that a small force would be sufficient to occupy Porto Rico, as the Spanish force there did not exceed 5,000 or 6,000 men.

Now, however, the Spanish garrisons have been so reinforced and the defenses strengthened that it is believed a much larger invading army will be required.

Moreover, the officials were satisfied on learning that the Cadix fleet, had sailed, that the ships would go to Porto Rico, rather than to Cuba, if they crossed to this side.

Matanzas, Cuba, June 18.—The Spanish are spoiling for a fight and they anticipate that, after defeating the American fleet, they will invade Florida, where General Molina has prohibited his troops to put the entire population to the sword.

Washington, June 18.—When General Miles was asked if he expected an early fight in Cuba he said that is what the troops have gone for.

Hongkong, June 18.—Advice from Manila says that the insurgents have captured the family of Governor General August.

MORE BIG SHELLS

Thrown into the Fortifications at Santiago.

Of Santiago de Cuba, June 17.—At daylight Thursday morning Rear Admiral Sampson's fleet bombarded the batteries at Santiago de Cuba for the third time.

For hours the ships pounded the batteries at the right and left of the entrance, only sparing El Morro, where Lieutenant Hobson and his companions of the Merrimack are in prison.

The western batteries, against which the main assault was directed, were badly wrecked. One was utterly destroyed. In others many guns were dismantled.

At first the Spaniards replied bravely and wildly, but impotently. Then most of the guns were deserted. Not a ship was struck nor a man injured on the American side. It is believed that the enemy's loss of life was heavy.

As a preliminary to the hammering given the batteries the dynamite cruiser Vesuvius was given another chance. Three 250 pound charges of gun cotton were sent over the fortifications at the entrance.

The design was to drop them in the bay, around the angle, back of the embankment on which El Morro is situated, where it was known that the Spanish torpedo boat destroyers were lying.

Two charges went through as no reports were heard—a peculiarity of the explosion of gun cotton in water. Whether the destroyers were demolished is not known, but the destructive area of gun cotton is large and it would not be surprising if it is subsequently ascertained that one or both were destroyed. The third charge exploded with terrific violence on Cayo Smith.

From where the fleet lay the entrance to the harbor looked, in the black night, like a door opening into the livid fire of a titanic furnace. A crater big enough to hold a church was blown out of the side of the Cayo Smith and was clearly seen from the ships.

Shanghai, June 17.—Admiral Von Diederich, it is semi-officially asserted, left Nagasaki, Japan, for Manila on receipt of instructions from Berlin, to prevent Admiral Dewey from bombarding the city, and also because Captain General Augustoff ordered the German consul the Caroline Islands as a cooling station, in case operations should be undertaken against Manila.

Gibraltar, June 17.—The Spanish trans-Atlantic liner San Augustine has arrived here from Cuba for the purpose of shipping 1,500 tons of coal. She has been detained by the British authorities, pending a guarantee that the coal is intended for purely commercial purposes.

Washington, June 17.—The war department expects to utilize approximately 35 transports in the expedition for the invasion of Porto Rico. The estimate is made that the 35 vessels will carry between 15,000 and 20,000 men with their equipments and subsistence.

Washington, June 17.—It is well understood here that Germany has sent her five warships to Manila in aid of Spain, and Admiral Dewey has been ordered to attack the Kaiser's ships at the first sign of interference.

Washington, June 18.—The navy department was greatly relieved by reports of new the Spanish fleet. The estimate is made that the 35 vessels will carry between 15,000 and 20,000 men with their equipments and subsistence.

Washington, June 17.—It is well understood here that Germany has sent her five warships to Manila in aid of Spain, and Admiral Dewey has been ordered to attack the Kaiser's ships at the first sign of interference.

Washington, June 16.—By a vote of 209 to 91 the house of representatives adopted the Newlands resolutions providing for the annexation of Hawaii. The vote in support of the resolutions was made up of 179 Republicans, 18 Democrats, 8 Populists and 4 Fusionists, the vote against annexation comprised 77 Democrats, 3 Republicans, 1 Populist and 1 Fusionist.

United States Camp, West Side of Entrance to Guantanamo Bay, June 16.—Lieutenant Colonel Robert W. Huntington and the United States marines made their first aggressive movement against the Spanish guerrillas Tuesday and completely routed the enemy.

The force of marines was under Captain Elliott, and the Spanish guerrillas were under Colonel Laborador.

The combined forces raised a Spanish camp about five miles from the American position, destroying the only well

in the vicinity and killed about 40 Spaniards.

One American marine was slightly wounded. Two Cubans were killed and it is believed there were at least 400.

It is impossible to estimate the number of Spaniards engaged, owing to their guerrilla methods of fighting, but they report having had a series of engagements with the Spaniards in which 100 Spanish soldiers were killed and 300 wounded.

They also destroyed a Spanish block-house and telegraph station, through which the Spaniards had been keeping Guantanamo and Spanish informed of the movements of American troops.

SAVED OUR LIFE.

Do Not Neglect the Kidneys and Bladder.

Disorder of these important organs causes Bright's disease, rheumatism, pain in the back, dropsy and other troubles. Diseases sometimes get a hold upon your kidneys and bladder before you realize that anything serious is the matter. Often these organs are neglected until that awful malady, Bright's disease, has fastened upon you, and death awaits its victim. Many miraculous cures have been wrought by a course of treatment with Dr. Davis' Kidney Tablets. These tablets are put up in the shape of a kidney bean, and the formula has been pronounced by the best physicians of modern times to be the most direct in action on the kidneys of any remedy known to medical science. You can eat three tablets as you would candy. Send for free booklet on kidney diseases. Sold by all druggists, or sent on receipt of price 50 cents and \$1.

AMERICA'S HEART.

Men say "tis the age when science leads, That the world's too busy for the dreams; Competition and strife for its selfish needs, And its present aims and its only themes. Not so! For America's heart is young, And the young heart leaps at the clarion's song

Ave, even, thank God, shall ideals reign O'er the great and heart of humanity Which pulsates and thrills with those hidden strains That breathe of the soul's yearning sympathy: That call men to duty with clarion song, Then whisper them, "Charity suffereth long."

Sing on, then, ye poets, both bold and free, Sing, Sing for pure love of the stirring strain! And give your hearts to the melody For America's heart yearns to be gay.

That heart of us old years to flee away From mere sordid strife with the things of clay. GOD BLESS AMERICA! Quo laden vadin, Cediz Reef? Good roas the annihilate distance. Bad roads are a stumbling block in the way of progress.

MANIFEST DESTINY.

It seems in the nature of manifest destiny that a century after Jefferson had unconsciously launched his policy of territorial expansion, the United States should be reaching her arse out into the Atlantic and Pacific to gather in new territory. Hawaii and the Philippines are immensely rich in their natural resources and boundless possibilities. Should they become a part of American domain they will become rich fields for action and will give opportunities for the employment of Yankee capital and enterprise. Victories of peace will be won there that shall redound to the honor and glory of the Republic. This expansion to our commerce that will result in Pacific waters will build an empire on the coast states of California, Washington and Oregon that will vie in wealth and population with the continental states of the East. Such an expansion will not result in Imperialism or any tendency in that direction. Those who argue to the contrary question the ability of the national character and deprecate the strength and fitness of our form of government. If our character is not equal to the responsibilities that attend the growth of a great nation and if our form of government cannot adapt itself to people who are striving for liberty then it is a failure—humanity is a failure—and the sooner the crash comes, the better it is for humanity. I think, though, that, as a nation, we will be true to the cause and found wanting. There is a glorious destiny, yes, a sacred destiny awaiting this country and the conditions that make it imperative for us to take up new territory are meant toward its achievement.

BIG SPRING.

JIM WITT, of Howell, was calling in town Sunday afternoon.

THE farmers are all busy harvesting and report the wheat good.

MORRIS JACOB was in Vine Grove Saturday the guest of Miss Flora Loh.

FOSTER LYONS, Jr., of Irvington, was the guest of Miss Hortense Miller last Sunday night.

JIM HARNED visited one of the fairer sex in the neighborhood of Constantine last Sunday and Sunday.

MISS IRMA BOARD, of Hardinsburg, is the charming guest of Mrs. E. W. Jones and other relatives here.

DR. DAVE LEWIS, of Blue Ball, passed through here last Saturday enroute to W. A. Clark's near Bewleyville.

MRS. CHARLIE MILLER, of Hardinsburg, is here the guest of her daughter, Mrs. G. A. Woodard and her son E. W. Jones.

MISS GEORGIA UNSEL who was expecting to visit friends here for two weeks was called home on account of the illness of her mother, much to our sorrow.

MEMS. MOORE and King Two Theological Seminary students, of Louisville, were here and filled the pulpit at the Baptist church last Saturday and Sunday.

MRS. JESSE CLARKSON and daughters who have been in Louisville for the past ten months are at home for the summer. They have with them as their guest, Miss Alice Vandiver, of Louisville.

MISS ELA HENDRICK spent several days of last week with me and attended the Normal exercises and Mrs. Moreman's cottillon.

I don't know that Mr. Dewey is entitled to two capital letters in his name. We might with propriety write De-Wey or Hobson and not be at fault.

MISS LILLIE MOREMAN is expecting several young ladies from Louisville this summer to visit her. Miss Lillie has a series of entertainments in view.

MRS. CAPT. RYAN is the guest of Mrs. Bishop, sister, with Mrs. Fountaine and Mrs. A. A. Young, will attend the round trip on the Youngs the 21st.

Every evening last week was full and stirring roundly out on a happy week when a large crowd assembled on street to hear the O'Flynn boys play their farewell waltzes.

Dyspepsia Degrades

its victims. It puts them in the power of the weakest organ of the body and makes them its slaves. They must eat to suit it, drink to suit it, and live a loutish life of self-denial.

AYER'S PILLS

have cured many bad cases of dyspepsia—they will cure you, if you are suffering from that disease. Mrs. H. B. Anderson, 15 Williams Street, Grand Rapids, Mich., writes: "Ayer's Pills cured me of dyspepsia from which I had suffered for three years." They beat every other medicine.

lection of photographs and cuts pertaining to the Spanish-American war, a history of our navy, Cuba and the Hawaiian Islands. He flies away all the papers in which are articles of importance bearing on this war, Give us some more such boys.

I enjoyed "The New Crusade" or paragraphing from Mr. Goodnight's pen on the Dewey victory, American possessions, American patriotism and usefulness in this war now being waged and I agree with his ideas entirely. They are truly red, white and blue sentiments and just at this supreme moment I have very little patience with any other kind.

A revisionist who has the power to entertain and please is rare. It takes several years of careful training to result in the practical results of an elegant and refined pronunciation of the English language the acquisition of an absolutely distinct utterance, a flexible and melodious use of the voice and to secure the most pleasing intonations and natural results and yet see people who deem it an easy undertaking.

Mrs. C. G. Moreman and daughter, Miss Lillie, gave a most delightful dancing party last Friday evening. The occasion brought out all society lights of our little city, for an entertainment at Mrs. Moreman's means a charming time. The dancing room looked attractive and patriotic with the American colors draped on the mantle. Dewey and Hobson's pictures framed with the stars and stripes waving over them. Flowers, globes of gold, light, bright lights, a waxed floor, pretty girls in evening dress, handsome beaux, with the clever O'Flynn boys to render the sweetest of music went to make up the social event for the season. A car of thanks is always in order for Mrs. Moreman's kindness to the young people.

Death of Mrs. Steele.

After a lingering illness, Mrs. Eliza Steele, daughter of John D. Gregory, Jr., died at her home on the hill, at 10 o'clock Monday night. The deceased was a woman of splendid attributes and Christian character. She was born May 30, 1838, and was married June 30, 1858. She was a member of the Baptist church. Her remains were interred at the Cloverport cemetery Tuesday afternoon and they were followed to the grave by a large concourse of sorrowing friends.
